TECHNICAL PROFILE

- SwiftUI (4+ years)
- Swift (7+ years)
- Objective C (5+ years)
- Python
- C++
- Automatization By Using CI (Jenkins or Teamcity)
- Unit tests

10+ years of hands-on experience in iOS development. View my full portfolio here.

EXPERIENCE

Apr 2019 - current | iOS Architect | SwiftUI, Swift

Neosensory Inc, San Francisco, CA

Spearheaded the development of 3 products within one mobile app from the ground up and led full app localization for international expansion to Korea. Led development of the Study apps in SwiftUI to facilitate research of new product features by the Science team.

Mar 2017 - Apr 2019 | Senior iOS Developer | Swift

Provectus IT Inc, San Francisco, CA

Conducted in-depth review of the codebase and dev processes for the end client (Platphorm) that had struggled to release their app (Phrendly) for 2 years; led the release of the app within 2 months. Developed client's second app (Everclear) from the ground up and ensured stable monthly updates for both apps.

May 2016 - Mar 2017 | Senior iOS Developer | Swift

Cue Connect, San Francisco, CA

Developed an SDK in Swift for eCommerce, featuring a wish list with Bluetooth beacon functionality. It allowed users to locate products in their wish lists in-store and receive notifications when they were near those stores.

EDUCATION

2011 | MS Information Security
Naval Academy, Sevastopol, Ukraine

2016 | Algorithms: Design and analysis Part 1
Stanford University, CA
